

TwinTec *The Cylinder Machine*

Designed to be compact, easy to operate and exceptionally manoeuvrable when in use, whilst the oversized transit wheels allow easy movement to and from any specific locations.

The cylinder power brush ensures deep cleaning performance, whilst the twin water pickup nozzles allow multi-directional operation which is vitally important when cleaning narrow walkways often found in shops and food stores. You can walk in forwards and reverse out without turning and without loss of scrubbing and drying performance.

Simple brush access

TT1535

Overfill cut off system

- **Compact**
Yet exceptionally manoeuvrable.
- **Multidirectional**
Twin water pickup nozzles for all round cleaning.
- **Cylinder Power Brush**
Ensures deep cleaning.
- **Swing Steering**
Provides easy directional control.
- **Transit Wheels**
Oversized transit wheels allow easy movement to and from any location.
- **Simple Control**
Easy to use operator controls.

Adjustable water flow

TwinTec *The Compact Single Disc*

The TwinTec 1840 cable machine has been designed to address the question of size being exceptionally compact, yet with performance equal to bigger machines.

The compact design really does allow this machine to clean in areas normally cleaned by hand, yet 30% to 40% faster and better.

Although designed for small and congested areas the TT1840 is equally at home in larger areas and can be used in conjunction with our cable roll, "the cable reel that rolls", extending the cable length from 20m to 40m without any loss of performance.

The style and proportion of the polyform water tanks allow for the machine to adopt a convenient tilt position with only approximately 5 litres in the clean water tank to facilitate single handed brush or pad changing.

TT1840

20m Cable reel

- **Water Feed System**
360° liquid feed for uniform delivery.
- **Convenient**
Fold flat design for easy transport from site to site.
- **Rugged Construction**
Tough all steel chassis design.
- **Fully Adjustable Handle**
For the perfect working position.
- **Low Noise**
Quieter, unobtrusive design means true versatility.
- **Easy Change**
Easy one handed brush or pad changing.
